ELEVATOR INSTALLATION PROJECT

COLLINGSWOOD STATION

Construction Notice

Temporary Closure of 2 Fare Gates

Only 2 of 4 Fare Gates will be available

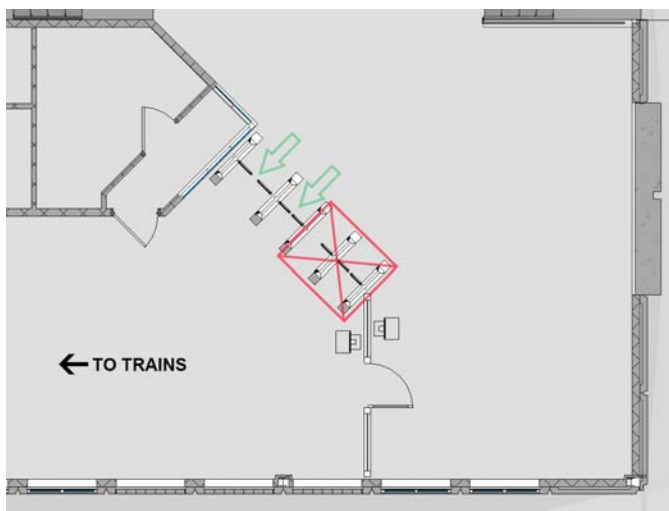

October 22 through Early 2019

As part of the Elevator Installation Project, two of the four fare gates at Collingswood Station will be taken out of service on or around Monday, October 22. Four gates will be available again in early 2019.

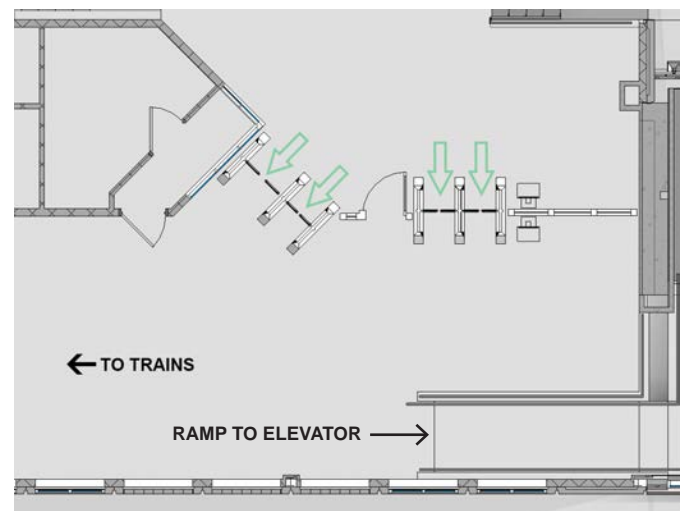

The reduced number of fare gates is required to allow construction, and their reconfiguration to allow the addition, of a ramp to the new elevator.

During construction, you may require extra time to reach the platform, especially during rush hours.

PATCO apologizes for any inconvenience this temporary measure may have on your commute. Your patience is appreciated.

Existing Station Fare Gates with Temporary Closure in Place

New Fare Gate Layout in Early 2019 with Ramp

Project Background

PATCO will install 8 new elevators in 6 stations over the next 4 years. Upon completion, all 13 PATCO stations will be fully accessible to individuals with disabilities and those using wheelchairs, strollers and bicycles.

The project will take place in three phases.

Phase 1: Collingswood and Haddonfield Stations

Phase 2: Westmont and Ashland Stations

Phase 3: Camden City Hall and the 12/13th & Locust Street Stations
